

## CHICKEN SHIT AT GUNUNG KAWI SEBATU ON SATURDAY MARCH 26th 2022

Yes it was CHICKEN SHIT - I fondly remember his dad HAY, HASH HORN and KING OF THE CHICKEN PLUCKERS (and incidentally why have we no HASH HORN now? It would be a good idea to resurrect the tradition, particularly to head the pack and keep it together. We find ourselves all at sea with lack of calling and competitive arseholes who crash through checks and dash ahead without a by your leave or thought for fellow HASHERS in the rear. As WHITEBAIT remarked, front runners need educating: you never get a response to the plaintive cry of ARE YOU? How many times do I have to tell you - three calls are to be uttered often and loudly as the occasion demands - ON ON, CHECKING, and ARE YOU? FUCK ME is unacceptable. Whatever happened by the way to fox and beagle horns that I have presented to the HASH over the years, or HAY's battered bugle for that matter? Does anyone care?)

Enough parenthetical rollicking. CHICKEN SHIT most ably assisted by BUTTER BITCH - phwoar wot a scorcher - and KACANG GATAL (ITCHY NUTS) ex GRAND MATTRESS of MACASSAR HXH. Bloody good show though short run at 7 k in such deeply indented terrain problematic, prompting premature start and load of latecomers. Poor dear RINGTAIL kept at it for ages past, scratching and reckoning, all most inappropriate this day.

SARASWATI it were - sacred to our goddess of learning and therefore all reading writing and rithmetic proscribed. Also as pointed out by YWGMH the anniversary of the last V2 rocket to hit England in 1945, a mere six weeks before VE DAY. Due cause for celebration: 120 runners (incl 20 kids) & four kegs BLUE & RED. Brilliant performance by GM of MONTREAL HASH and her mum - welcome back - and PHEELTHY PHROGGE who delivered as promised S&M MAN - don't know about YWGMH's rendering of FUCK ME & SUCK ME though: lot of background blethering - DISCIPLINE. Su reports continuous passage of frog hawks and honey buzzards plus hordes of bee-eaters (Blue-tailed) heading back to S China and India from the eastern part of the archipelago - maybe even OZ. ON ON.
