

PURA MENGENING TAMPAXIRING REMEMBER REMEMBER BHHHII NOV 5TH

Remember remember the fifth of November. The plot was forgot and not even the dampest squib mindlessly there to revive it, and you were all perfectly well aware that it was TUMPEK LANDEP - day appointed for SENDATA, BUT HAVING NO keris or motor-car, my typewriter had vanished under a basket of flowers and confections - the pen is mightier than the sword. Anyone whose keris or motor was not suitably adorned should have been shriven, but alas! the elements were not propitious. It pissed down - not on the actual run you understand but before anyone could pay proper attention, and YWGMH was deprived of the opportunity to enlighten all hounds with his hallowed words of wisdom.

HARES were our two stalwart antediluvians - SERIAL OFFENDER and WOODEN EYE Two two two trails (9 & 4 k) thro the stunning river PAKRISAN valley with a fair number of 'wicked' checks though none above 50 yards or 60 paces. First one placed barely 250 yards from start and so cleverly contrived that even STEPTOE ran back breathlessly expatiating the pack's inability to discover paper. SHAME! Too many sloppy trails of late devoid of falsies stunted FRB's nous to check sedulously. Pay fucking attention you wankers and check and call properly. I wondered why the name EXCESS BAGGAGE appeared with the map. WOODEN EYE took me to a BALI MOON piss-stop and showed me. There was the appropriately monickered nignog in plastic panama dishing out fancy cocktails, cigars, and NASIKALENG shirts. We are of course exceedingly glad to receive such treats and EXCESS BAGGAGE was awarded several DOWNDOWNS as a mark of our appreciation. The proceedings greatly enlivened by the reappearance of HARD CASE and DYNAMO so long isolated in OZ, and ROCKS ON and FROCKS OFF newly returned from blighty. Big welcome back. Shhhh don't tell anyone but HARD CASE elected to be new GM of HAMMERSLEY HHH. And Fox Hunting starts today (Nov 6).
